PROFESSIONEEL PARCOURS

Voornaamste elementen van uw parcours, die de voorzitter van de vergadering moet benadrukken tijdens zijn inleiding

- Graduated as electro-mechanical engineer at the university of Leuven, Kris started working in the automotive sector in 1993. He started as a Technical Consultancy Engineer in high-tech projects on NVH. Throughout his career, he acquired experience in Engineering Management and Technical Sales, promoted to Business Unit Manager and Managing Director within different industrial companies, and acquired worldwide experience in Europe, USA and Asia. Strongly convinced of the innovative power of the XenomatiX technology and the inevitable breakthrough of it, he joined this fast growing high-tech.
